

PRODUCT DESCRIPTION

YDRO 25 (YDRO SEPTIC) is a product containing a specially formulated range of microorganisms capable of treating septic tanks of houses or groups of houses and cesspools.

The high performance facultative and aerobic microorganisms in conjunction with the contained minerals, micronutrients, vitamins and amino acids create ideal conditions for the improved operation of the septic tanks and cesspools. It degrades organic compounds contained in the wastewater, breaks down fats, oils and grease and eliminates odors without harming any metal, ceramic, plastic or concrete facility or equipment. It avoids blockages and conglomeration of fats, eliminates the production of sludge within the tank and decreases the emptying or cleaning necessity (if a seepage septic tank).

The application is easy, user friendly and creates no environmental effect or hazard. If applied in septic tanks and cesspools it is suggested that the application is carried out at night.

Please obtain a copy of the Safety Data Sheet (SDS) and contact us or our local distributor for further information.

PHYSICAL PROPERTIES

Colour.....	Light brown
Appearance.....	Powder
Odour.....	Smells Like Yeast
Relative density	0.6 – 0.8 g/cm3
Bacterial cultures.....	< 1.0wt%
Ph.....	6,5 – 7,0
Effective content.....	>99wt%
Degradability.....	Biodegradable
Durability.....	12 months

APPLICATIONS

1. The product is 100% natural, non-genetically modified and environmentally friendly.
2. It breaks down complex organic molecules, fats, oils, eliminates odors and minimizes emptying and cleaning.
3. It creates ideal conditions for the elimination of sludge production, increasing the overall efficiency of the tank.

KEY FEATURES

- Diminishes and breaks down fats and oils
- Prevents additional pumping costs
- Increases the breakdown of organic content
- Prevents sludge clogging and build-up
- Does not damage the pipes and tanks
- Increases efficiency in cold weather
- Non-toxic/naturally occurring product

KEY RESULTS

- Eliminates odors
- Reduces sludge accumulation
- Maintains optimal performance
- Increases drainage effect
- Breaks down paper
- Easy to use
- Environmentally safe

RECOMMENDED DOSAGE

Number of persons	Number of capsules	Interval
1-2	1	Weekly
3-4	3	Weekly
5-6	3	Weekly

DIRECTIONS FOR USE

Add capsules to the toilet and leave it overnight before flushing. Do not use any chemicals or detergents during these hours.

STORAGE

Store in the original container in a cool and dry container. Avoid excessive heat and direct sunlight. Dispose of the container according to local regulations.

PACK SIZES AVAILABLE (NUMBER OF CAPSULES)

- S - 500 capsules
- M - 1000 capsules
- L - 2000 capsules
